

ISPEC 2022: International Conference on Information Security Practice and Experience, Taipei, Taiwan, 23 - 25 November 2022

<https://ispec2022.ndhu.edu.tw/>

The 17th International Conference on Information Security Practice and Experience (ISPEC 2022) will be held in Taipei, Taiwan, 23(Wed)-25(Fri) Nov. 2022. The ISPEC is an annual conference that brings together researchers, scholars and practitioners to provide a confluence of new information security technologies, including their applications and their integration with IT systems in various vertical sectors. Topics for ISPEC 2022 include but are not limited to

- Access control
- Applied cryptography
- Biometric Security
- Cryptocurrency
- Cyber-physical security
- Data security in cloud computing
- Database security
- Digital forensics
- Formal methods for security
- Intrusion detection
- Lightweight security
- Web security
- Malware detection
- Mobile security
- Operating system security
- Privacy enhanced technology
- Security and privacy in edge computing, IoT, ubiquitous computing
- Security for critical infrastructures

Submitted papers should follow the instructions of the Springer LNCS Style. Please kindly refer to [Springer LNCS Author Information](#) for style and formatting guidelines. The ISPEC 2022 conference proceedings will be published by Springer in the Lecture Notes in Computer Science series.

Submission link: <https://easychair.org/conferences/?conf=ispec2022>

Due to persisting concerns over travel safety in the wake of COVID-19, the upcoming ISPEC 2022 will be held both physically in Taipei and virtually. (The conference will accept online presentations if the authors are unable to attend the ISPEC 2022 conference.)

Important Dates

Submission deadline: ~~July 31st, 2022~~ **August 15th, 2022.**

Acceptance notification date: September 15th, 2022.

Excellent studies from ISPEC 2022 will be recommend to the following journal special issues.

- Special Issue: Recent Advances in Internet-of-Things Attacks and Defenses, Journal of Information Security and Applications
- Special Issue: The 17th International Conference on Information Security Practice and Experience (ISPEC 2022), Concurrency and Computation: Practice and Experience
- Special Issue: Trust, Security, and Privacy in Metaverse, Future Generation Computer Systems
- Special Issue: The 17th International Conference on Information Security Practice and Experience (ISPEC 2022), Journal of Information Science and Engineering
- Special Issue: The 17th International Conference on Information Security Practice and Experience (ISPEC 2022), Journal of Internet Technology
- Special Issue: The 17th International Conference on Information Security Practice and Experience (ISPEC 2022), Symmetry
- Special Issue: Information Security Practice and Experience: Advances and Challenges, Computer Modeling in Engineering and Sciences
- Special Issue: The 17th International Conference on Information Security Practice and Experience (ISPEC 2022), Journal of Surveillance, Security and Safety.
- Topical Collection Security, Trust and Privacy in New Computing Environments, Sensors
- Special Issue: Blockchain-Enabled Technology for IoT Security, Privacy and Trust, Symmetry
- Special Issue: Safety and Security of Autonomous Vehicles, Transactions on Emerging Telecommunications Technologies (ETT)
